... and Action! Asia #05: Exchange Program for Students in Film Studies
Application Guideline

The Japan Foundation Asia Center and Jakarta Institute of the Arts call for entries for the fifth edition of ...and Action! Asia: Exchange Program for Students in Film Studies for fiscal year 2018. We look forward to entries from many students of filmmaking.

I. Program Outline

1. Statement

With the development of digital technology, filmmaking has become an easier practice to pursue throughout the world resulting in a wide range of films being produced. However, opportunities for those studying film and younger filmmakers to work with their foreign counterparts are still limited. To provide students of film with such opportunities, the Japan Foundation Asia Center (hereafter the Asia Center) and Jakarta Institute of the Arts jointly carry out **...and Action! Asia#05 Exchange Program for Students in Film Studies**, an exchange program that encourages the deepening of mutual understanding and fostering a new generation of filmmakers in the Asian countries. The program welcomes students who are interested in achieving collaborative works in filmmaking and expanding their networks in the region, and using their experience for their studies and future careers. This fiscal year, the program includes short film co-productions, their screenings, and also discussions and lectures by professionals in the industry. We believe the collaborative works and networks built through this program will lead to sustainable partnerships in film industries among Asian countries.
